Equitable and Inclusive Education

## *Social Planning Network of Ontario*

**Ontario Healthy Schools Coalition  
Healthy Schools Conference**

**Integrating Health and Learning:  
Roles, Relationships and Results**

**Hamilton, ON  
March 26<sup>th</sup> 2018**

# *Social Planning Network of Ontario (SPNO)*

- The SPNO is a network of 18 independent, community-based social planning organizations across the province.
- The SPNO exists to strengthen the capacity of social planning organizations to improve the quality of life and social well-being of their communities.

# *Strategic Framework for SPNO's KNSWB Planning*

- ❖ Creating a Cross-Community of Practice – engaging education “equity champions” from multiple stakeholders (educators, researchers, students, parents, community advocates) in communities across the province in order to:
  - > improve student well-being through mobilization of knowledge
  - > increase equity and inclusion at all levels of the education system from policy to practice.
- ❖ Establishing a “Table of Champions on Equity and Inclusive Education” to guide and support the knowledge mobilization process for development of a line of inquiry on issues and opportunities to increase equity and inclusion in the education system for improved student well-being.
- ❖ Promoting and supporting conversations among stakeholders at the local and regional level on selected priorities.

## *SPNO's CCoP Priorities for Knowledge Mobilization on Equity & Inclusive Education*

- ✓ Eliminating resource inequities and disparities of low income communities and their schools.
- ✓ Raising the consciousness & understanding among educators of the inequities and exclusionary conditions facing low income students and families.
- ✓ Engaging low income families in their schools in meaningful & inclusive ways.
